

Random Number Generator Certificate

Operator: DGAMERS Pvt. Ltd
Operator URL: <http://www.khelo365.com>

This is to certify that iTech Labs has evaluated the Random Number Generator (RNG) by DGAMERS Pvt. Ltd. and found that the RNG complies with the relevant standards.*

The RNG uses a well known algorithm to generate random numbers. The numbers generated by this RNG have passed Marsaglia's "diehard" tests for statistical randomness.

iTech Labs has also evaluated card shuffling for single deck (no joker).

The card shuffling tests were conducted on large enough samples to give the calculations sufficient statistical power.

iTech Labs has found that card sequences are unpredictable, non-repeatable and uniformly distributed.

The certified code for the RNG has been fingerprinted.

While it is not possible to test all possible scenarios in a laboratory environment, iTech Labs has conducted a level of testing appropriate for a component test of this type.
